Psychiatrists under the Mental Health Regulations 2015

Prescribed Medical Practitioners (Mental Health Act 2014) exercise significant powers and functions which impact the rights of individuals. The need for accountable procedures and processes and the establishment of rigorous knowledge and skill requirements are fundamental to the proper and effective administration of the Mental Health Act 2014 (MHA 2014) for the protection of individual rights, and patient, carer and community confidence in the system of care.

The Chief Psychiatrist maintains a public register of medical practitioners who are designated as Prescribed Medical Practitioners (MHA 2014).

The MHA 2014 uses the term 'psychiatrist' to describe a medical practitioner who can carry out certain functions under the MHA 2014.

For the definition of 'psychiatrist' in section 4 of the MHA 2014, the following people are prescribed under the Mental Health Regulations 2015:

- a) Medical practitioners who hold specialist registration in WA in the specialty of psychiatry
- b) Medical practitioners who hold limited registration in WA that enables them to practice in the specialty of psychiatry
- c) In addition, individual medical practitioners whose names and registration are set out in the Regulations through a process of gazettal.

For the purposes of this Register 'c' above applies.

The register includes medical practitioners who are Prescribed Medical Practitioners (MHA 2014) by Order of the Governor of Western Australia in Executive Council and will in time include those who have had their status as a Prescribed Medical Practitioner revoked. The Register is updated when required and coincides with the publication of the Government Gazette notices. The register is correct as of the date noted on the document.

Further information about Prescribed Medical Practitioners is available on the Chief Psychiatrist website at the following link:
